Full Stack Developer (React, React Native, Node, AWS) with over 3 years of experience delivering scalable web and mobile solutions. Proven track record of shipping production MVPs, optimizing CI/CD pipelines to cut deployment time by 60%, and improving UI performance for 10k+ active users. Skilled in building end-to-end products from concept to deployment.

EXPERIENCE

Altius Softtech Solutions
Bengaluru, India

Senior Software Engineer — *Jan 2025 – Present*

– Owning end-to-end delivery of a mobile product (*architecture, feature planning, performance, release pipeline*).
– Driving frontend standards across teams: component libraries, accessibility, code review guidelines, and CI checks.
– Partnering with design to translate Figma flows into performant RN/Next.js interfaces with smooth UX.

Software Engineer — *Feb 2023 – Dec 2024*

– Led development of a mobile app from *concept → TestFlight → App Store*, including store assets, build signing, and release notes.
– Implemented responsive, interactive web UIs in Next.js with reusable component patterns, improving development speed and consistency across features.
– Integrated push notifications, deep linking, and in-app analytics with event tracking; added skeleton loaders and smooth UI transitions, improving user engagement by 20% and enabling data-driven feature rollouts.
– Collaborated with backend to define REST/GraphQL contracts and error handling; added robust retry/toast patterns.

Avysh
Bengaluru, India

Junior Software Engineer — *Jul 2022 – Feb 2023*

– Architected an AWS-based CI/CD workflow to spin up *preview environments per PR* (Ephemeral URLs), speeding reviews and QA.
– Shipped product features across React/Node; resolved production issues and improved logging/observability.

Software Engineer Intern — *Feb 2022 – Jun 2022*

– Built a localization framework for web/mobile e-commerce (*i18n message catalogs, fallbacks, RTL support*).
– Implemented CRUD modules and spreadsheet ingestion; streamlined data workflows and edge-case validation.

Freelance
Bengaluru, India

Graphic Designer — *Jun 2020 – Jan 2022*

– Designed catalogs/branding; collaborated on UI/UX for small business websites and apps.

SELECTED PROJECTS

Unwind (Personal)
React Native, TypeScript, Supabase, Next.js,

AI-powered second-brain productivity app (mobile + web) — *2025*

– Built an AI-powered cross-platform second-brain app (mobile + web) with real-time sync, intelligent organization, and features like collections/tags, calendar view, share extension, and native haptics/animations using Zustand for state management.

TECHNICAL SKILLS

Core: JavaScript (ES6+), TypeScript, React, React Native, Next.js, Node.js, Express, GraphQL, REST
Cloud/DevOps: AWS (Amplify, Cognito, AppSync, S3, EC2), CI/CD, Docker
Data: PostgreSQL, MongoDB, SQL, SQLite, Redis
Testing/Quality: Jest, React Testing Library, E2E basics, Swift Debugger
Tools & Design: Git, Figma, Xcode, App Store Connect
Other: UI/UX, Graphic Design, Swift (basics), Python, Native bridges, Performance profiling, Problem Solving

EDUCATION

NMAMIT, Nitte
Nitte, India

B.E. in Information Science and Engineering — *Aug 2018 – Aug 2022*
